HARRY LEE DEPARTS.

Had the Choice of Going to Jail or Leaving Town.

Yesterday Harry Lee was given the choice of going to jail as a vagrant or of getting out of the country. He wisely chose the latter course, and, through the financial help of some of his friends, got away for San Francisco on the Alameda.

It appears that Harry Lee, while working for the Board of Health in China, during the plague epidemic, circulated the story among his intimates that he had accidentally discovered the combination of a safe belonging to a Chinese store and had taken therefrom \$4,000. He further stated that he turned this money over to two employees of the Board of Health. The police got wind of the affair and proceeded to investigate. They heard that Lee was going to leave the country, and thought perhaps he had not turned the money over as he had stated but intended to skip with it.

The two employees of the Board of Health, upon being questioned, denied any knowledge of the matter and one of them wanted to fight Lee for his assertions. No money had been received, they said, nor did they know anything of the matter. Lee afterwards said he had circulated the yarn as a joke on one of the Merchants' Patrol.

Yesterday Lee was taken before the former Board of Health employees above referred to, and he signed a certificate to the effect that he had told an untruth and that there was nothing in the story at all.

Chance Saved Their Lives.

Willie Simerson, freight clerk of the Mauna Loa, and William Bliven are congratulating themselves upon an escape last week that seems to have been due to the interposition of their lucky stars. They were going from Pahala plantation to Punaluu, Kau, and they boarded a train laden with sugar from the mill. By chance and quite contrary to their usual custom they took the last car of the seventeen. Shortly after the train had started and while it was going at full speed nine cars in the middle became disconnected and went off the track. Had the two men been on board of any of them they might have been killed. The coupling between the last car that left the track and the one in which they were seated luckily broke and they were saved.

ALSEN PORTLAND CEMENT

WE HAVE JUST RECEIVED a large shipment of this celebrated Cement, which is the STURDIEST AND MOST SERVICEABLE CEMENT MADE, and will permit the admixture of a larger amount of sand gravel, with less loss of strength, than any other brand; it is therefore the most economical.

ALSEN has no equal in color, fineness and sand carrying capacity. It weighs less per bushel, measuring about 10 per cent more cement to a barrel than other brands, which very materially reduces its cost as compared with other cements. It is therefore an economical cement to use, and specially adapted for fine concrete work.

The following tests, made in actual work by Col. D. C. Houston, Corps of Engineers, U. S. A., at the sea wall arounds, seven days, 600 pounds, thirty bor, has never been equalled by other cement. It is as follows: Tensile strength per square inch—One day, 34 pound Governor's Island, New York Harbor, 818 pounds.

For sidewalks it gives the best color and the most durable wearing surface.

A few of the large contracts in which Alsen Cement was used: Cable R. R., Baltimore, 25,000 barrels; Quebec Harbor Improvement, 20,000 barrels; Northern Pacific R. R. Bridges, 20,000 barrels.
